CONTENTS

PREFACE	iii
SYMBOLS AND ABBREVIATIONS	viii
CHAPTER I - INTRODUCTION	1
CHAPTER II - INSTRUMENT SYSTEMS AND ERRORS	3
References	6
Figures	7
CHAPTER III - STANDARD ATMOSPHERE AND EQUATIONS FOR AIRSPEED, MACH NUMBER, AND TRUE AIRSPEED	11
Standard Atmosphere	11
Airspeed Equations	14
Mach Number Equations	17
True-Airspeed Equations	18
Conversion Factors	19
References	20
Figures	22
CHAPTER IV - TOTAL-PRESSURE MEASUREMENT	25
Tubes Aligned With the Flow	25
Tubes Inclined to the Flow	27
References	29
Figures	31
CHAPTER V - STATIC-PRESSURE MEASUREMENT	47
Reference	51
Figures	52
CHAPTER VI - STATIC-PRESSURE TUBES	59
Tubes Aligned With the Flow	59
Tubes Inclined to the Flow	61
Orifice Size and Shape	62
References	63
Figures	64
CHAPTER VII - STATIC-PRESSURE INSTALLATIONS	75
Fuselage-Nose Installations	75
Wing-Tip Installations	77
Vertical-Fin Installations	78
Fuselage-Vent Installations	79
Combined Calibrations at Low and High Altitudes	80
Calibration Presentations	81
Installation-Error Tolerances	81
Installation Design Considerations	82
References	83
Figures	85

CHAPTER VIII - AERODYNAMIC COMPENSATION OF POSITION ERROR	109
References	111
Figures	112
 CHAPTER IX - FLIGHT CALIBRATION METHODS	 121
Calibration Methods for Deriving Position Error	121
Trailing-Bomb Method	124
Trailing-Cone Method	125
Pacer-Aircraft Method	125
Tower Method	127
Tracking-Radar Method	128
Radar-Altimeter Method	128
Ground-Camera Method	129
Tracking-Radar/Pressure-Altimeter Method	130
Accelerometer Method	131
Recording-Thermometer Method	133
Trailing-Anemometer Method	134
Speed-Course Method	137
Sonic-Speed Method	137
Total-Temperature Method	138
Calibrations by Ground-Camera and Tracking-Radar Methods	139
References	144
Table 9.1	146
Figures	149
 CHAPTER X - ERRORS DUE TO PRESSURE-SYSTEM LAG AND LEAKS	 165
System Lag	165
System Leaks	168
References	169
Table 10.1	170
 CHAPTER XI - AIRCRAFT INSTRUMENT ERRORS	 171
Mechanical Instruments	171
Electrical Instrument Systems	174
Accuracy of Calibration Equipment	177
References	178
Tables	180
Figures	186
 CHAPTER XII - OPERATIONAL ASPECTS OF ALTIMETRY	 199
Barometric Scale Settings	199
Flight Technical Error	202
Overall Altitude Errors	203
References	206
Table 12.1	208
Figures	209

CHAPTER XIII - OTHER ALTITUDE-MEASURING METHODS	215
Radio and Radar Altimeters	215
Laser Altimeter	217
Sonic Altimeter	217
Capacitance Altimeter	217
Density Altimeter	218
Limited-Range Pressure Altimeter	218
Hypsometer	218
Cosmic-Ray Altimeter	219
Gravity Meter	219
Magnetometer	220
References	221
APPENDIX A - TABLES OF AIRSPEED, ALTITUDE, AND MACH NUMBER	223
APPENDIX B - SAMPLE CALCULATIONS	279
Part I - Static-Pressure Errors and Flight Quantities	279
Determination of Position Error Δp	279
Calculation of V_C and ΔV_C , H and ΔH , and M and ΔM	281
Calculation of C_L	282
Calculation of V	283
Part II - Pressure Increments in the International System of Units	284
Part III - Pressure-System Lag and Leaks	285
Calculation of Airspeed and Altitude Errors Due to Pressure Lag	285
Calculation of Altitude Error Due to a Leak	
INDEX	291
